**You'll hear "yes" a lot in this industry.**

Too bad just saying yes doesn't move product. Years of stability, a robust container fleet and tight control over operations does. At Hub Group when we say "yes" to the customers we work with, we truly mean it. And that means your shelves will be full of more than just empty promises.

The average U.S. cargo theft is \$233,000\*.  
What's more surprising?  
You're probably not protected.

Most companies assume it won't happen to them. But in the U.S., more than 800 of them are proved wrong every year. And they'll need a lot of new sales to cover just one bottom-line loss. Bad guys are plotting, but so are we. UPS Capital Insurance Agency, Inc. will customize a policy for your business and even cover losses to the full retail value. Better yet, with more than 100 years of supply chain expertise, we can help prevent them in the first place. Protect yourself. [upscapital.com](http://upscapital.com)
